

SEEKING the Artist's Voice

TOKEN RESPONSE 2.0

Questions can help you figure out how an artist thinks and works.

Start simple. Look at the title, date and medium first. (*IMPORTANT: Are you looking at an original artwork or a reproduction?*) Choose three tokens to guide your inquiry. Circle your chosen tokens.

Hints:

Knowing something about the artist and their work can help you ask better questions, for example, an artist's statement, key life experiences of the artist, and basic information about specific works. Be specific. If you ask easy questions, you are going to get easy answers. If you ask thoughtful questions, you are going to get rich answers.
